

Matthieu Gallou-Guyot, PhD

Postdoctoral Researcher – *The University of Tokyo*

Contact

Phone: *on request*
 Mail: matthieu.gallou.guyot@gmail.com
 ORCID: [0000-0002-2616-4850](https://orcid.org/0000-0002-2616-4850)
 Citizenship: French
 Age: 32 (1992/12/25)
 French: mother tongue
 English: full professional

Bio

I am a French researcher with a keen interest in both sports science and neuroscience to promote active ageing. As a physical therapist, I have a background in clinical research and have since shifted my focus towards data-driven research. In my role as lecturer, I emphasize the value of active learning and hands-on, project-based education. Curious and mobile, I have lived and worked in France and Japan.

Curriculum vitae

Professional experience

- 2024/04 ~ Now The University of Tokyo, Department of Applied Biological Chemistry, Tokyo, Japan
 → **Postdoctoral researcher** ([link](#))
 - Developing machine learning models applied to functional MRI to assess how multi-modal sensory stimuli influence prediction accuracy in both encoding and decoding tasks
- 2023/03 ~ 2024/04 Japan Society for the Promotion of Science – *affiliated to Physical Behavior Assessment Team, Ochanomizu University, Tokyo, Japan*
 → **Postdoctoral researcher fellow** ([link](#))
 - Built time series analysis and forecasting models to investigate the relationship between physical activity behavior and clinical adverse events in patients with sickle cell anemia
- 2021/10 ~ 2023/02 URPS-MK (Union Régionale des Professionnels de Santé, Masseurs-Kinésithérapeutes), Nouvelle Aquitaine, France
 → **Scientific expert consultant** ([link](#))
 - Provided expertise and guidance for the design and implementation of clinical research projects in physiotherapy
- 2019/04 ~ 2022/06 Municipality of Limoges, Limoges, France – *affiliated to HAVAE Laboratory, Limoges University, Limoges, France*
 → **Research project manager** ([link](#))
 - Led the design, development, and evaluation of an exergame used as a training tool for fall prevention among older adults
- 2019/01 ~ 2019/04 HAVAE laboratory, Limoges University, Limoges, France
 → **Research engineer**
 - Conducted data processing, analysis, and dissemination for applied research projects

- 2018/09 ~ 2023/02 French physiotherapy institutes, Paris and Limoges, France
 → **Lecturer and academic coordinator** ([link](#))
 - Taught theoretical and practical courses, supervised student research, and coordinated academic programs and teaching units
- 2016/06 ~ 2019/01 Private practice, Sceaux, France
 → **Physiotherapist** ([link](#) / [link](#))
 - Provided physiotherapy services in private clinics and community housing environments

Degrees & certifications

- 2023/03 French National Council of Universities (Conseil National des Universités), France
 → **State certified lecturer** in neuroscience (69), sports science (74), and rehabilitation (91) ([link](#))
- 2022/06 Sports Science Graduate School, Limoges University, Limoges, France
 → **PhD in sports science** ([link](#))
- 2020/12 GIRCI-SOHO institute, France
 → **Certificate of good clinical practices** ([link](#))
- 2018/06 Sports Science Graduate School, Paris-Est University, France
 → **Master's degree in sports science** ([link](#))
- 2017/06 KPTEN institute, France
 → **Certificate in spinal manual therapy** ([link](#))
- 2016/06 Ministry of Sports, France
 → **State certified sports instructor** ([link](#))
- 2016/06 National French Physiotherapy Institute (ENKRE), Paris-Sud University, France
 → **Bachelor's degree in physiotherapy** ([link](#))

Research achievements

Funds acquisition

Fellowship

Japan Society for the Promotion of Science - Postdoctoral Fellowship Short term program ([link](#))

"Physical activity in patients with sickle cell disease: Effect on the vascular function, frequency of painful episodes and clinical course of the disease"

4.600.000¥ (~35.000 USD)

2023/03 – 2024/03

Research collaborator – Postdoctoral researcher

Industrial Convention for training through Research (CIFRE) – French National Technology Research Association (ANRT) ([link](#))

"Interference Cognitivo-Motrice Exercise"

36.000 € (~39.000 USD)

2019/04 – 2022/06

Research collaborator – Doctoral candidate

Grants

Japan Society for the Promotion of Science Research grant - 2023

"Physical activity in patients with sickle cell disease: Effect on the vascular function, frequency of painful episodes and clinical course of the disease"

860.000¥ (~6.200 USD)

Limoges University International Mobility Grant - 2022 ([link](#))

1.500 € (~1.600 USD)

Limoges University International Mobility Grant - 2021

350 € (~380 USD)

French Physical Medicine Society (SOFMER) Transatlantic Mobility Grant - 2019

500 € (~540 USD)

Awards

Prix de thèse 2022 - finalist ([link](#))

Prix Territoria 2022 - Argent ([link](#))

Teaching

Lectures

Lectures, workshops and evaluation provided at university level. Hourly volumes (**212h in total**): ([link](#))

- 2024-2025: 8h
- 2023-2024: 4h

- 2022-2023: 110h
- 2021-2022: 22h
- 2020-2021: 39h
- 2019-2020: 29h

Geriatric	<ul style="list-style-type: none"> • Cognitive aging: from physiopathology to treatment • Link between cognition and motor skills – assessment & rehabilitation • Adapted physical activity, training, rehabilitation and re-athletics
Research methodology	<ul style="list-style-type: none"> • Establishment of a research protocol • Integrity & ethics - Regulations & laws • Scientific writing • Bibliographic research • Critical reading of articles • Data analysis and processing, statistical analysis (Python)
Clinical practice	<ul style="list-style-type: none"> • The muscle-tendon complex: from assessment to treatment • Passive and specific joint mobilizations • Falls in older adults: assessment and physical activity rehabilitation program

Thesis supervision

Master's thesis supervision (**17 in total**):

- 2022-2023: 5
- 2021-2022: 4
- 2020-2021: 6
- 2019-2020: 2
